Sustainability in the digital age: Energy-Efficient Software Development

Teaching Team: Detlef Thoms and Team

Duration:	25.03.2025 - 08.04.2025
Language:	English
Teaching form:	Online Course

Course Topics:

- Introduction of the Mission and Challenge of Sustainable Programming
- How to build applications with minimal electricity consumption
- Electricity consumption and carbon footprint of sustainable coding
- How to measure Performance and Energy Consumption of LLMs
- Effects of hardware settings on power consumption and performance
- Sustainable operational efficiency by elastic scalability

Downloaded on October 31, 2026

openHPI is the education platform of the Hasso Plattner Institute (HPI) for Digital Engineering. Together with the University of Potsdam, the Hasso Plattner Institute forms the Digital Engineering Faculty of the University of Potsdam. The university's teaching focuses on a variety of practical and engineering-oriented study programs.
